SWEAT GUTR®

THE ULTIMATE SWEATBAND®

THE SWEATBAND THAT NEVER SATURATES

Sweat GUTR is built to continuously keep sweat from running into your eyes and blurring your vision. The patented GUTR Technology™ works by capturing and channeling dripping sweat away from your eyes and glasses, so you can focus on what matters. It's not made from fabric, so it will never soak or saturate. It will never quit. Lightweight, comfortable and easy-to-clean, this is The Ultimate Sweatband.™

TESTIMONIALS

“The Sweat GUTR not only kept sweat out of my eyes, but also seemed to stop my glasses from fogging.”

Malcolm Sawford, Cat 1 Racer & Carnegie Caulfield CC President

“I’ve tried headbands, bandanas, running caps and something called the Halo...but they were a waste of time. In temperatures of up to 100 degrees and really high humidity, I had no problems whatsoever with the Sweat GUTR.”

cymsteve, entry on LetsRun.com

“The GUTR is one of the few things that you can buy these days that really makes your riding/racing experience better.”

Jake Rubelt, Carmichael Training Systems, Senior Coach & 2nd place finisher, 2006 Leadville 100 MTB Race

“The GUTR actually works...Very comfortable and thin...Simple yet effective. I would recommend it to anyone....”

Peter, Rite Aid Professional Cycling Team Member
