Speakers

10 W (2 x Ø 47 mm) portable wireless speaker (with Bluetooth V5.0 connectivity) waterproof and protected against the effects of submersion (IPX7). Listen to your favorite radio stations or your favorite music through memory cards and answer calls comfortably by having your Smartphone linked to the speaker thanks to its hands-free function. In addition, it supports TWS functions, so you can pair two speakers of the same model and let your music play in each one of them at the same time.
